ABOUT NATIONAL FORENSIC SCIENCES UNIVERSITY

National Forensic Sciences University, the erstwhile Gujarat Forensic Sciences University is the brain child of Govt of Gujarat. It was established by the Hon'ble Prime Minister of India Shri. Narendra Modiji, then Chief Minister of Gujarat in 2009 with a sole objective of creating professional experts in the field of Forensic sciences. At a juncture of spiking number of crimes involving sophisticated technologies and much evolved modus operandi, there was a need for scientists and technocrats. Thereby the resolution of such heinous crimes was more diligently possible. This has been prudently considered by the Govt of Gujarat and the university came into existence as a unique and first of its kind academic institution dedicated to Forensic Sciences across the globe.

Since its inception, the university has been scaling new heights with its extraordinary and exemplary performances in the field of academic forensic sciences. Though the university started with conventional courses related to forensic sciences has been able to introduce novel courses those are based on the requirement of the country to solve the issues related to the society. Starting with four courses in three institutes, the university shrugged off the inception stages very early with pioneering efforts of introducing distinctive courses those were unique such as forensic nursing, forensic odontology, forensic nursing, homeland security and anti-terrorism, digital forensics to mention a few. This has reached a magical figure of forty currently. All these courses have been very much sought after by prospective and aspiring experts as they are the need of the hour. Based on its impressive successes achieved by this university within a short span of eleven years, the Government of India has recognized its services to the student communities and the professionals of the national and international origin, and has accorded the status of Institution of National Importance and the also as a central university in October 2020.

SCHOOL OF LAW, FORENSIC JUSTICE and POLICY STUDIES

School of Law Forensic Justice and Policy studies is established with the aim of imparting professional education with a special focus of forensic application in all allied areas of law and policy framework. The school aspires to be the leading provider of forensic justice understanding to all professionals from different areas of governance including justice administration. Through forensic lenses it focuses on crime prevention, crime reduction, crime mapping, speedy and fair dispensation of justice, thereby contributing to overall welfare of people. The school is ultimately envisioned to produce sound techno-legal experts who can contribute in all areas of governance improving the efficiency leading to peace and happiness amongst the people through the highest index of Rule of Law and Justice.

ABOUT THE COMPETITION

Legal field has been facing various challenges for last few decades especially in terms of pendency of cases and complex legal compliance. To address these situations, we need to come up with innovative mechanisms, initiatives in the said field. Innovation and Startups in the legal field are the answer to this. We can witness many startups have come up in the legal field in last few years especially by young minds. Ministries, Government Departments /bodies have initiated various innovative schemes for serving people at large.

To promote and support various ideas related to law and allied field, we at School of Law, Forensic Justice & Policy Studies, National Forensic Sciences University, Gandhinagar in association with Legal Startups has organised a unique State - Level Business Plan Competition on Legal Innovation & Legal Startups.
